

K-Love has been in two states I have lived in (Oregon & Arizona) over the past two decades. As I have traveled the states on business, I have found K-Love to be a welcome relief from the other options available on FM radio.

When I suffered the sudden death of my 43-year old wife, K-Love was the only radio station I could stand. It filled my home. I have known many people who go through times in their lives where talk radio, country music, rock, rap, NPR, etc., just don't fill the need. K-Love is the best of the best in uplifting music. We all take turns going through those times when K-Love lovingly focuses on the bright side of life.

Please do not allow any LPFM broadcaster to displace such a rare jewel in the broadcasting community.
